

Le Haut-Médoc de Dauzac 2019

Haut-Médoc Appellation

The grapes from this lovely little 4-hectare vineyard in Haut-Médoc are grown and made into wine as carefully as the ones at Château Dauzac. The distinctive soil provides a complexity in which the Cabernet Sauvignon grapes are fully expressed. Hints of fruit and spice give this nicely balanced wine its genuine character.

The 2019 vintage was subjected to certain weather conditions, which led us to spending more time in the vineyards. Fortunately, our team know-how and farmer wisdom allowed us to see this nice vintage through successfully. After a winter back-and-forth between mild and cold spells, bud break came fairly early. Our phytosanitary practices in the vineyards are inspired by biodynamics with the use of local plants. Flowering occurred quickly thanks to the mild weather in late May and early June. However, rainfall disrupted the smooth development of the flowering on the Merlot grapes, triggering a little coulure (also known as shatter) and millerandage, leading to looser, less compact bunches, and lowering the yield in favour of quality. Then in late June and into July, a heatwave settled across southwestern France. The heatwave, coupled with a slight lack of water, caused the vines to develop minor water stress, beneficial for stopping growth and conducive to grape ripeness. In late July, bunches in the vineyards were thinned out by our teams to eliminate the unbalanced berries and make veraison more consistent. Harvesting began on September 17th and ended on October 10, 2019. In compliance with the biodynamic calendar, the grapes were harvested on fruit days for grand terroir wines as has been the case for the past several vintages. In addition, plot-by-plot selection was optimised using a Bacchimeter.

Tasting comments

Intense ruby-red colour, fine nose of red fruit (cherry), mouth-filling and balanced. The straightforward Cabernet Sauvignon tannins are nice and velvety.

Our suggestions

White meat, poultry, red meat, game, cheese

Ageing potential

At its best between 3 and 15 years of age, can keep up to 15-20 years.

CEO: Laurent Fortin
Technical Manager: Philippe Roux
Consultant Oenologist: Eric Boissenot

Blend: 68% Cabernet Sauvignon, 32% Merlot

Growing surface area: 4.1 hectares

Soil type: gravely hilltops

Rootstocks: 101-14, Riparia Gloire and 3309

Fertiliser: Organic

Plant density: 10,000 vine stocks per hectare

Average age of vines: 35-40 yrs. old

Estate varietal planting: 69% Cabernet Sauvignon, 29% Merlot, 2% Petit-Verdot

Type of pruning: Double Guyot system with de-budding

Harvesting: By hand in small bins and table sorting before and after destemming

Vinification: Use of a gravity-flow cellar to supply the fermenting room

Fermentation in stainless steel, temperature-controlled vats.

Fermentation temperature: 28°C

Malolactic: Yes

Fining: if needed, with plant proteins

Ageing: for 12 months with racking, depending on the tasting
