Aurore de Dauzac 2019

Margaux Appellation

Produced from vines located on a specific geological vein where the gravelly soil is fine and sandy, the plot-by-plot selection unique to Aurore de Dauzac lets the Cabernet Sauvignon grapes express themselves, providing a crisp, fruity and intense wine.

The 2019 vintage was subjected to certain weather conditions, which led us to spending more time in the vineyards. Fortunately, our team know-how and farmer wisdom allowed us to see this nice vintage through successfully. After a winter back-and-forth between mild and cold spells, bud break came fairly early. Our phytosanitary practices in the vineyards are inspired by biodynamics with the use of local plants. Flowering occurred quickly thanks to the mild weather in late May and early June. However, rainfall disrupted the smooth development of the flowering on the Merlot grapes, triggering a little coulure (also known as shatter) and millerandage, leading to looser, less compact bunches, and lowering the yield in favour of quality. Then in late June and into July, a heatwave settled across southwestern France. The heatwave, coupled with a slight lack of water, caused the vines to develop minor water stress, beneficial for stopping growth and conducive to grape ripeness. In late July, bunches in the vineyards were thinned out by our teams to eliminate the unbalanced berries and make veraison more consistent. Harvesting began on September 17th and ended on October 10, 2019. In compliance with the biodynamic calendar, the grapes were harvested on fruit days for grand terroir wines as has been the case for the past several vintages. In addition, plot-by-plot selection was optimised using a Bacchimeter.

Tasting comments

Very nice garnet-red colour. Nose of red fruit and spices, smooth and supple attack on the palate with a tightly-knit structure. Fresh, elegant finish.

Our suggestions White meat, poultry, red meat, game, cheese

Ageing potential At its best between 3 and 15 years of age, can keep up to 15-20 years.

CEO: Laurent Fortin Technical Manager: Philippe Roux Consultant Oenologist: Eric Boissenot

Blend: 64% Cabernet Sauvignon, 36% Merlot Growing surface area: 42 hectares Soil type: Fine and sandy, gravelly hilltops Rootstocks: 101-14, Riparia Gloire and 3309 Fertiliser: Organic Plant density: 10,000 vine stocks per hectare Average age of vines: 35-40 yrs. old Estate varietal planting: 69% Cabernet Sauvignon, 29% Merlot, 2% Petit-Verdot Type of pruning: Double Guyot system with de-budding Harvesting: By hand in small bins and table sorting before and after destemming Vinification: Use of a gravity-flow cellar to supply the fermenting room Fermentation: in temperature-controlled, insulated stainless steel and wooden casks. Fermentation temperature: 28°C. Malolactic: Yes *Fining:* if needed, with plant proteins

Ageing: 12 months in barrels with racking, depending on tasting results
